

Instructions to Assemble "My Little Arabic Alphabet Book"

What you'll need:

- Scissors
- Glue stick
- Stapler

1. Cut out the rectangles on each page and glue them together back to back. Be careful to make sure letters are the same direction on both sides. Fold in half. (Tip: Cut and glue 1 sheet at a time to insure pages don't get mixed up. For the first page, the Alif will be glued to the back of the front cover page)

2. Place the pages in order (same order as the print out) and take a look through to make sure they are in alphabetical order. As is typical with Arabic books, the pages go from right to left.

3. Lay the pages open and flip the book so the front cover is on top. Staple it through the centre (3 staples work well.)

Alternatively, you can cut out each letter separately and staple them together. Or, they can be pasted to cardstock to use as flashcards.

Hope your little ones enjoy inshaAllah!
